Organizing Department/Cell	
Faculty Coordinator	
Student Coordinator(s)	
Resource Person/Mentor	

2. Introduction

The **BOOT Camp/Peer Learning Activity** was organized to provide students with an experiential, collaborative and skill-oriented learning environment. The activity encouraged students to learn through hands-on practice, peer interaction, teamwork, mentoring and problem-solving.
The programme was designed to complement classroom learning by providing opportunities for students to apply theoretical concepts to practical situations and to learn from the knowledge and experience of their peers.

3. Objectives

The major objectives of the activity were:

1. To promote experiential and hands-on learning.
2. To strengthen students' technical and professional skills.
3. To encourage peer-to-peer knowledge sharing.
4. To develop teamwork, communication and leadership abilities.

5. To promote collaborative problem-solving.

4. Activity Details

Duration	

5. BOOT Camp / Peer Learning Structure

The activity was organized through a structured learning model comprising:

Phase I – Orientation

Students were introduced to the objectives, expected learning outcomes, activities and evaluation methodology.

Phase II – Team Formation

Students were organized into groups based on their interests, skills or learning requirements. Senior/experienced students were assigned the role of peer mentors wherever applicable.

Phase III – Learning & Hands-on Activities

Students participated in practical exercises, demonstrations, problem-solving activities, projects, coding exercises, case studies, simulations or other domain-specific activities.

Phase IV – Peer Interaction

Student mentors and peer groups facilitated knowledge sharing, doubt resolution and collaborative learning.

Phase V – Evaluation/Demonstration

Students demonstrated their learning through presentations, project demonstrations, quizzes, practical tasks, assessments or problem-solving exercises.

Phase VI – Feedback & Reflection
Feedback was collected from participants to assess learning effectiveness and identify areas for improvement.

6. Documentary Evidence

Sl. No.	Evidence/Document	Status
1	Activity Approval	Available (Yes/No)
2	Activity Notice	Available
3	Programme Schedule	Available
4	Participant Registration	Available
5	Student Mentor List	Available
6	Attendance Sheet	Available
7	Learning Material	Available
8	Photographs/Videos	Available
9	Assessment Records	Available
10	Student Projects/Outputs	Available
11	Feedback	Available
12	Activity Report	Available
13	Outcome/Impact Evidence	Available
14	Certificates, if issued	Available
